Schedule & Movement (S&M)

Assessment

INTEREST	TESTER	PROG OFFICE	ENG GROUP	USER	SECURITY	SYS ADMIN
TECHNICAL						
INFORMATIONAL	X			X		
FUNCTIONAL						

Technical = requirements **Functional** = enhancements

Developer: SRA, Fairlakes, VA
Government POC: Tom Barr
SME: Emilie Klutz, ACOM
JITC Team: Holly Lund, Sarah Patno and Joe Fernandez

Assessment Objectives:

This was an assessment of the S&M functionality on the new operating environment (DII COE 3.0) only. There were no test procedures and the assessment application was not measured against requirements. JITC was present at all times and documented comments and prepared pre-assessment and post-assessment documentation. The user and JITC avoided all comment that may have caused redirection to the scope of the product. JITC was responsible to the Joint Staff and the PMO to bring all issues, questions, comments, and concerns to the appropriate GCCS representative.

User Expectations:

Observation of a system that functioned as well as the S&M application currently resident in GCCS v2.2.

Assessment Results:

The overall assessment was excellent. The functionality was the same as the current application, functions were IAW the requirements, the requirements were satisfactory.

Recommendation:

The SME felt that the application should be integrated into GCCS v3.0.
